

## Curtain Players Drive-In Performances

As the actors perform inside, Curtain Players will project a livestream of each performance onto a screen outside of the theater so that audiences can enjoy the show, drive-in style, from the comfort of their cars. Audio will be broadcast over FM radio.

Tickets will be priced at \$30 per vehicle, and parking will be limited to allow for proper viewing and social distancing. Tickets will be available via the Curtain Players website (if not currently available, please check back soon).

Guests will be allowed to set up chairs in front of their vehicles; audience members sitting outside their vehicles are encouraged to bring an FM radio. Face masks are strongly encouraged outside of vehicles, and chairs will not be permitted between cars (i.e. everyone stays in their own bubble). These measures are in place to maintain social distancing. The concession stand will be closed, so patrons are welcome to bring snacks and drinks (no alcohol permitted). Restrooms will be open, and masks are required to enter the playhouse. An attendant at the main entrance will allow guests inside one at a time. House rules will be handed out upon arrival.

These arrangements are subject to change, and Curtain Players will continue to adhere to state and local guidelines. The theater's priority is to present quality community theatre while protecting the health and safety of its actors, volunteers, and patrons.
